4. First aid measures

4.1. Description of first aid measures

General

In all cases of doubt, or when symptoms persist, seek medical attention.
Never give anything by mouth to an unconscious person.

Inhalation

Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious place in the recovery position and obtain immediate medical attention. Give nothing by mouth.

Eyes

Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.

Skin

Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.

Ingestion If swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting. Immediately rinse mouth with water.

4.2. Most important symptoms and effects, both acute and delayed

Overview May cause eye irritation with redness and tearing. May cause mild skin irritation. May cause gastrointestinal irritation with nausea, vomiting and diarrhea. Individuals with pre-existing skin disorders may be at increased risk from exposure.

5. Fire-fighting measures

5.1. Extinguishing media

Appropriate for surrounding fire.

5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: Thermal decomposition may produce dangerous Oxides of carbon, hydrocarbons, organic acids and aldehydes.

Do not breathe mist / vapors / spray.

5.3. Advice for fire-fighters

Firefighters should wear full emergency equipment and an approved positive pressure self-contained breathing apparatus.

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Put on appropriate personal protective equipment (see section 8).

6.2. Environmental precautions

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

6.3. Methods and material for containment and cleaning up

Prevent entry into sewers and waterways, after product recovery - wash surface with water.

7. Handling and storage

7.1. Precautions for safe handling

Avoid contact with the eyes and skin. Wear protective clothing and equipment as described in Section 8. Wash thoroughly with soap and water after handling. Keep containers closed when not in use.

See section 2 for further details. - [Prevention]:

7.2. Conditions for safe storage, including any incompatibilities

Handle containers carefully to prevent damage and spillage.

Incompatible materials: Contact of the "Base" component with alkaline or acid substances could produce flammable hydrogen gas.

Store between 5 C and 26 C / 41 - 80 F in a dry, ventilated area. Protect packages from physical damage.

See section 2 for further details. - [Storage]:
