## SECTION 1 - GENERAL

**Material:** Econosil® Silicone Jewelry Molding Rubber  
**Family Name:** Silicone

## SECTION 2 - STORAGE

Recommended Storage: Less than 25°C / 77 °F

Conditions: Dry, absence of direct natural or artificial light

## SECTION 3 - TYPICAL PROPERTIES

**Color:** Red  
**Specific Gravity ( H<sub>2</sub>O = 1 ):** 1.429  
**Physical Form:** Solid

## SECTION 4 - INGREDIENTS

**Components** - Chemical Name & Common Names  
( Hazardous Components 1% or greater, Carcinogens 0.1% or greater )

Silicone  
Filler \*\*  
Common Compounding Ingredients \*

When Indicated Above:

\*\* Carcinogenic - IN PURE FORM ONLY - However when incorporated into a Silicone Compound it is considered BOUND and NOT HAZARDOUS OR CARCINOGENIC ANY LONGER.

\* Hazardous

## SECTION 5 - CONFORMITY TO TRANSPORTATION REGULATIONS

For transportation purposes, this product is non-hazardous according to the United States Department of Transportation Code of Federal Regulations (CFR), Title 49.

## SECTION 6 - POTENTIAL FIRE HAZARDS

**Fire decomposition products:** Carbon oxides and various hydrocarbons and silicon oxides.

**Fire fighting procedure:** High expansion foam, Water fog. Treat as a hydrocarbon fire. Use fresh air masks.

## SECTION 7 - SPILL CONTROL / WASTE DISPOSAL

Repackage uncontaminated rubber. Bury rubber wastes in an approved land fill site.

## **SECTION 8 - HEALTH HAZARDS, TOXICOLOGY**

None of the additives are listed in the Code of Federal Regulations (CFR) Title 29 1910.1000 paragraph subpart Z - Toxic and Hazardous Substances. This material is an inert, non-hazardous solid, however it is recommended that gloves be used during prolonged handling.

This product can generate formaldehyde at approximately 150 degrees C and above in the presence of air. Formaldehyde is a skin and respiratory sensitizer, eye and throat irritant, acute toxicant and potential cancer hazard. Use adequate ventilation and/or wear protective equipment when this product is heated at approximately 150 degrees C and above.

This material has no known hazardous properties. ACGIH and OSHA exposure limits are no longer relevant to compounding ingredients after incorporation into rubber. However since this material contains more than 1% ingredients listed as hazardous in OSHA 1910.1200, it is recommended that the protected measures described below should be followed.

## **SECTION 9 - PROTECTIVE MEASURES**

Wear cloth gloves and appropriate clothing to minimize skin contact.

Follow good personal hygiene practices.

Observe general safety regulations for rubber processing and compounding.

As conditions or methods of use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for any use of this material. Information contained herein is believed to be true and accurate but all statements or suggestions are made without warranty expressed or implied, regarding accuracy of the information, the hazards connected with the use of the material or the results to be obtained from the use thereof. Compliance with Federal, state, and local laws and regulations remains the responsibility of the user.

*The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigations to determine the suitability of the information for their particular purposes. In no event shall Romanoff be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, howsoever arising, even if Romanoff has been advised of the possibility of such damages.*
